

Shanghai Primary Showcase Lessons - Scarborough 2019

Since 2014, Maths Hubs have taken part in an exciting annual exchange programme for primary maths teachers.

The fifth China–England exchange is now underway and in January 2019 two teachers from Shanghai will be visiting Northstead Community Primary School in Scarborough.

Teachers in the region will have the opportunity to observe one of their lessons. Afterwards, post-lesson discussions will take place, in which the lesson design and delivery is un-picked in detail, with a view to understanding how teaching for mastery can work in local classrooms.

Sessions will be running on the following dates/times:

- Tuesday 22nd January 2019: Year 4
- Wednesday 23rd January 2019: Year 3

Schedule for the sessions:

13:15 Introduction to Primary Mathematics in Shanghai

13:45: Lesson observation Y3 or Y4

14:20 Break

14:30 Post lesson discussion

15:15 Close

To book a place please visit:
